Applicant's election of Group B: Fig. 9 in the reply filed on October 19, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Applicant elects all pending claims. However, Figure 9 doesn't disclose a hook as in claims 1-18 and 27, a replacement wall portion connected with the second wall as in claim 24 and an advertisement as in claim 25. Therefore, claims 1-18, 24, 25 and 27 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected specie, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on October 19, 2004.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19-23 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Mogil.

Mogil discloses a cooler. Re claims 19-22, the outer shell is the first wall portion and the inner liner is the second wall portion. Re claims 19, 20 and 23, the outer shell is the second wall portion and the inner liner is the first wall portion. Re claim 26, the engagement of the first and second wall portions can be one hook and eye fabric on the shell to one hook and eye fabric on the liner ( e.g. 60 and 142) and the flexibility of the liner material and the shell material is such that the liner can be pivoted into and out of the shell.
